Subject: Highview Avenue & Crescent

I am a resident of the village and would like to express my concerns about the poor lighting and parking issue here on my street. The corner of Highview & Crescent St has no street lighting and I respectfully request someone to look into installing a light on Crescent street. At night it is pitch black and very dangerous. Vehicles do not honor the speed limit and that curve onto Highview is rather unsafe. My other issue is that I notice an large amount of vehicles parking on my street that do not belong to anyone who lives on my street. These individuals live on the other side of the neighborhood and park here cause of parking restriction on their streets. Can we have the same restrictions? think it's unfair as a tax payer that i can not have my guest or even myself park on the street when i need to. Changes need to be made.

I have a special needs child that lives with me (my son) and I am worried about letting him out to play in front as a result of so many vehicles driving through my street at a high rate of speed. Can we have a posted speed limit sign posted or perhaps Dixon street become a two way street to alleviate traffic?????

Lastly is there anyway of getting a speed bump installed to slow down these drivers??

Thanks for your time.
