Gentlemen,

I am adamantly expressing my concerns of the 259 Ridge Street housing project. Through my experience traveling on this road everyday on my way to work , it would be extremely dangerous to have vehicles coming out onto Ridge street from the proposed housing project. Also I must add it would be an eye sore for neighbors that live near this parcel of land. Further more I feel it would be an environmental issue and would devalue the appraised values of homes within its proximity.

I appreciate your input and careful consideration in not letting this happen to our community.

Very truly yours,
Walter Janeczko
